Intents

An intent matches when a message is similar to one of its training phrases. Entities (phone, email, date, number) found in the message can be used in the response as {date}, {phone}, {email}, {number}. The intent contact_request starts the request form.

Test a sentence

e.g. I want to book an appointment on 2026-1...

English

Add intent

Name: book_appointment

Priority: 0
