13 · Content management: FAQ, Knowledge Base, Intents, Commands

Code: `app/web/routes/content.py`. All pages use HTMX: an action returns only the changed table row. Every request first passes the dashboard guard (12). Every change writes an Audit log.

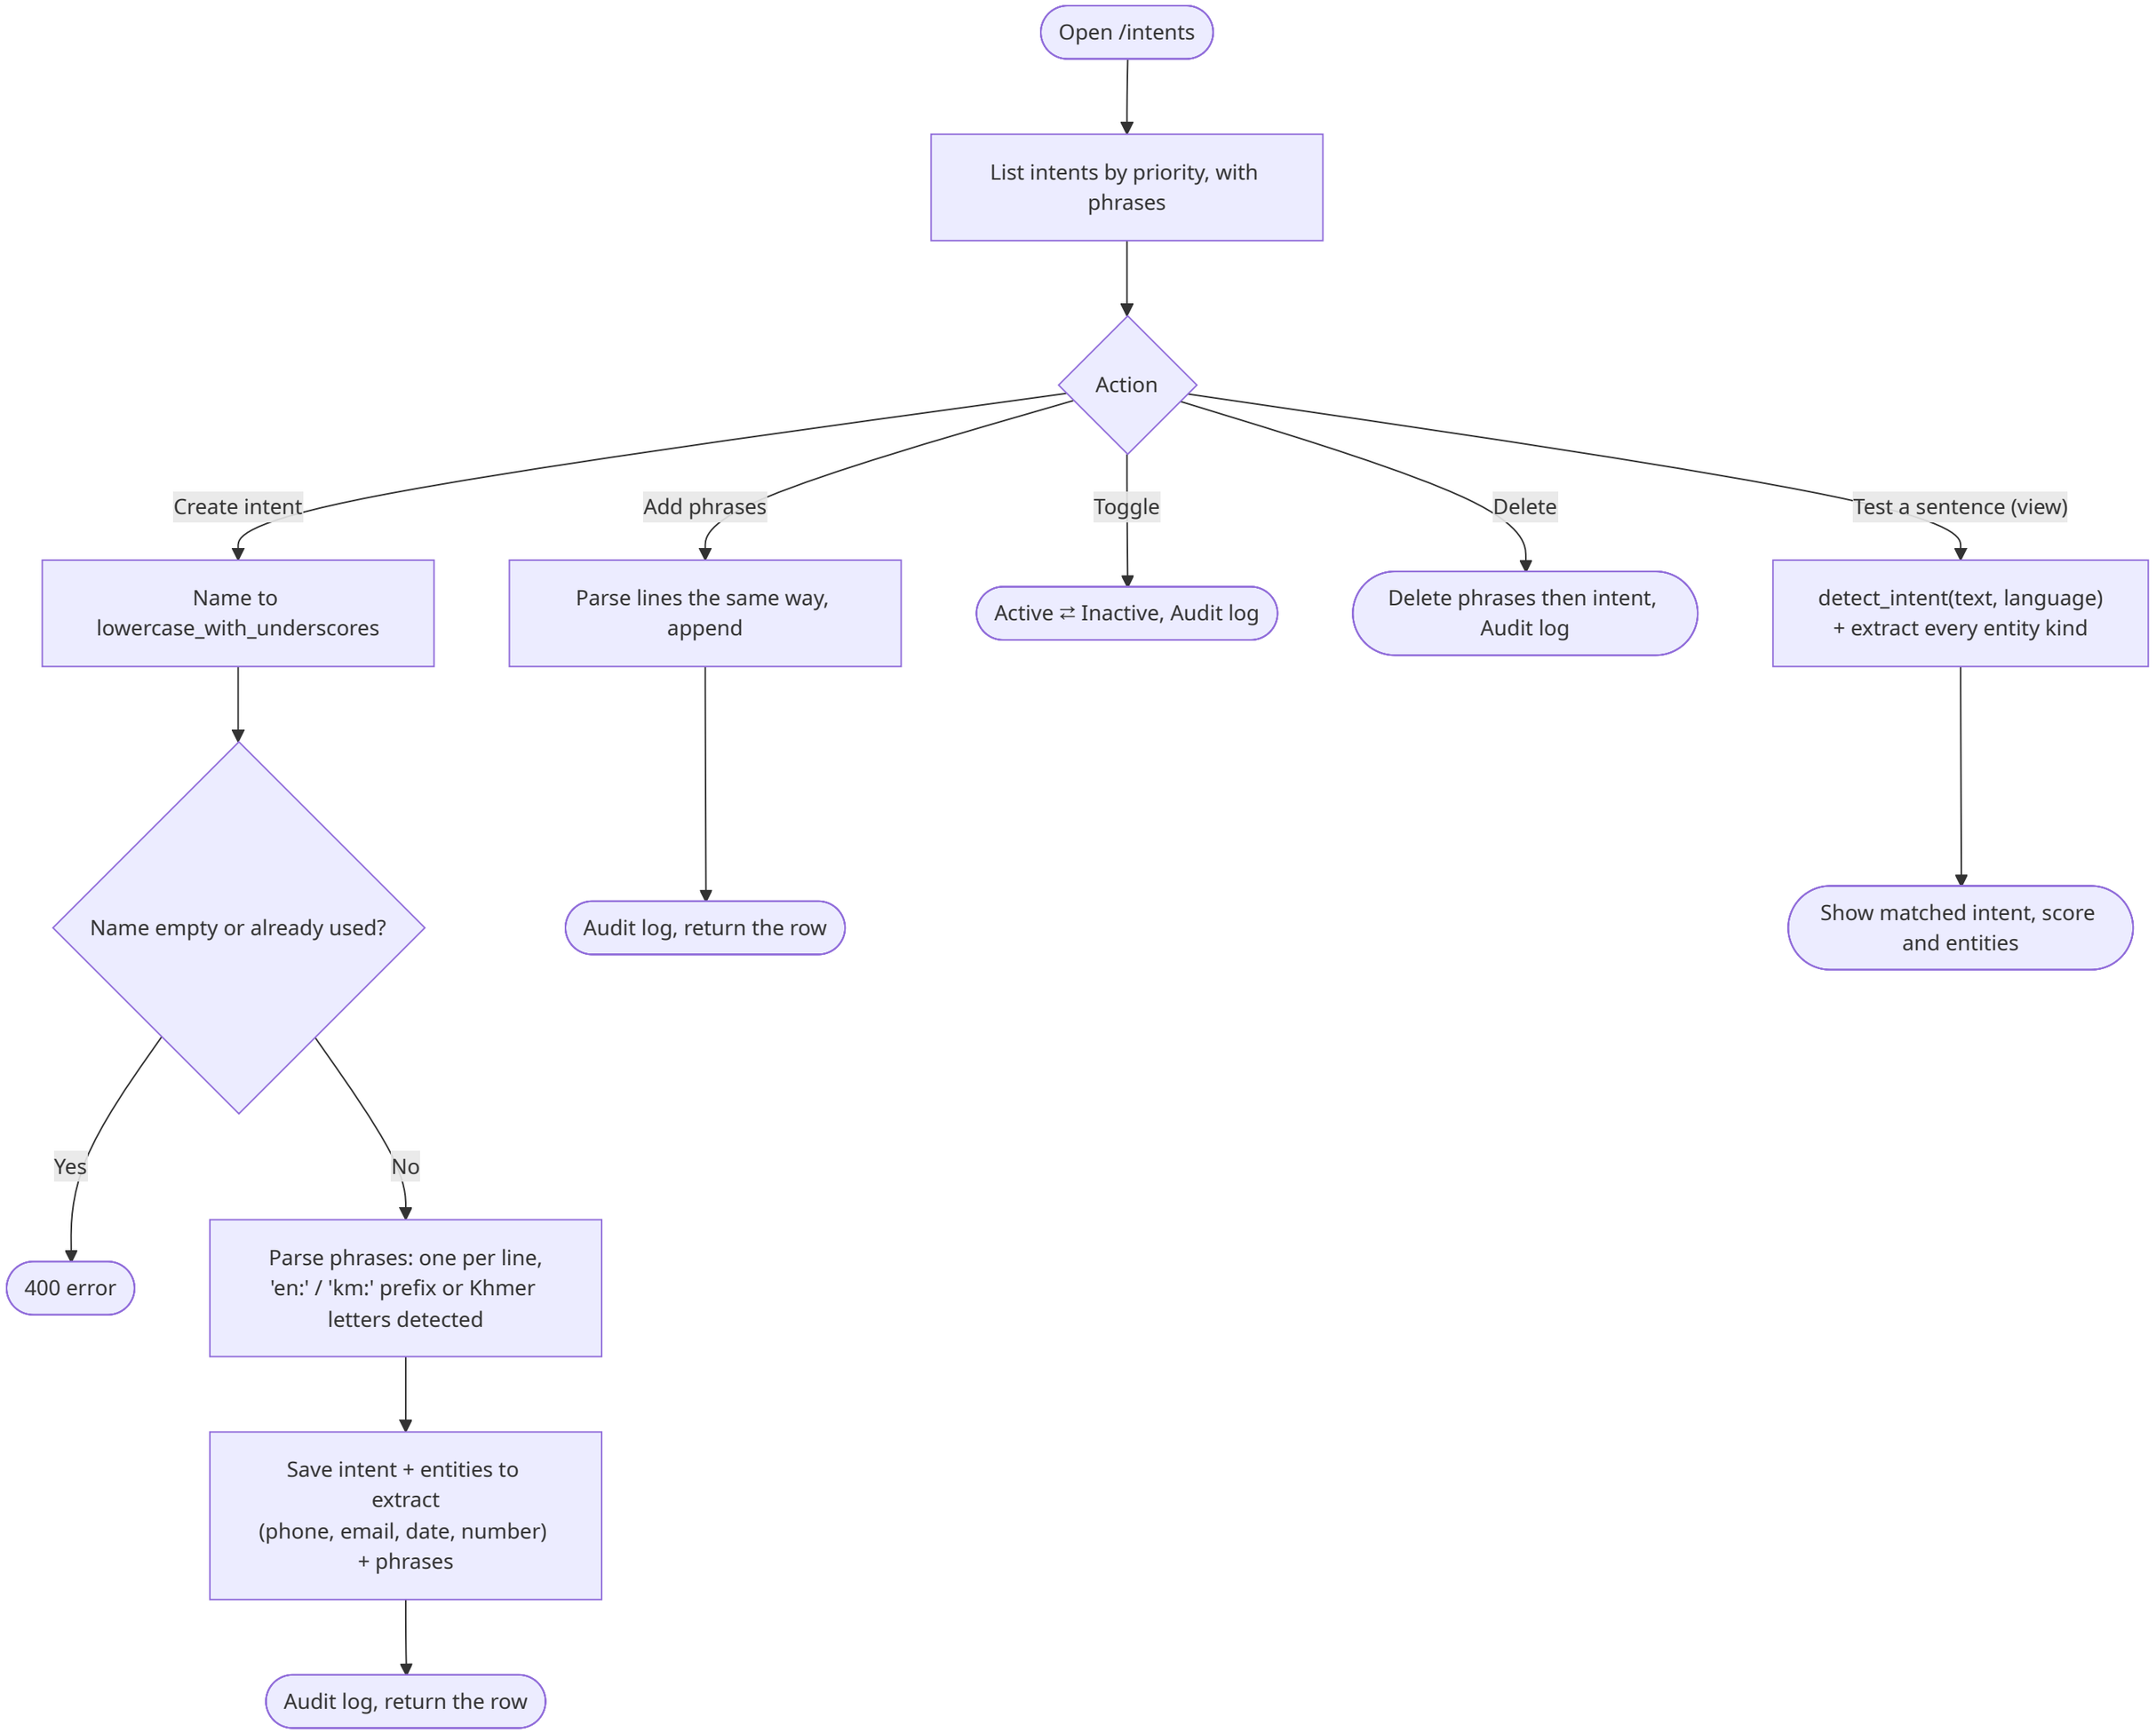

Permission needed per action

Page	View / search	Create	Toggle status	Delete
FAQ	`view`	`create`	`edit` (Active ⇄ Inactive)	`delete`
Knowledge Base	`view`	`create`	`edit` (Published ⇄ Draft)	`delete`
Intents	`view`	`train` (also add phrases)	`train` (Active ⇄ Inactive)	`delete`
Commands	`view`	`create`	`edit` (Active ⇄ Inactive)	`delete`
